Professional Coil Spring Compressor Kits

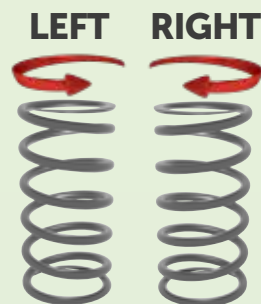

A

C

B

Our new Coil Spring Compressors have been specially designed for the left winding coil springs found on some modern vehicles. Our new yoke design allows left winding springs to seat safely and securely to the curvature of the yoke.

- Suitable for MacPherson strut coil springs.
- Plastic yoke protectors that protect the spring coating from damage, which can invalidate the vehicle manufacturer's guarantee.
- Safety yokes carefully shaped to stop the spring bowing while under compression.
